DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Mastie (US 6,480,866).

With regard to claims 1-17, all of the claimed limitations are either explicitly or inherently taught by Mastie. Which is evidenced by the fact that the current application teaches a method of extending a print area beyond the lower margin and Mastie discloses a method and an apparatus of assembling a set of pages files into a

Art Unit: 2622

document within a certain frame work. The apparatus determines if a file fits into a certain document frame work which would include defining a margin and if the document does not fit into the current frame work the framework can be adjusted to include adding new lines to accommodate the print file so that printing can occur below the original margin (See col 7, line 32 – col 8 line 37).
